TOGAF® Foundation, TOGAF® Certified, ArchiMate® Certified, and IT4IT™ Foundation from Good e-Learning are Accredited Training Courses and comply with the accreditation requirements for The Open Group Certification for People: TOGAF®, ArchiMate®, and IT4IT™ Certification Programs.

This accredited Practitioner course comprehensively covers the ArchiMate 3.0 modeling language and how it can be practically applied when creating enterprise architecture models.

## WHO SHOULD TAKE THIS COURSE?

This course is ideal for individuals or teams who wish to build a solid understanding of ArchiMate 3 and develop architecture artifacts using ArchiMate.

Upon completion of this course, students will have gained a thorough knowledge of the terminology, structure and concepts needed to pass the ArchiMate 3.0 exam.

## WHAT'S NEW IN ARCHIMATE 3?

Like ArchiMate 2, ArchiMate 3 is a comprehensive modeling language that allows architects to create commonly understood and integrated visualizations of the essential enterprise architecture domains.

Published as an Open Group Standard in June 2016, the ArchiMate 3 specification is a major update to ArchiMate 2.1. New features in version 3 include:

- New concepts - Strategy and Motivation
- New entities – Application, Technology and Implementation layers
- Better ways to connect planning with implementation
- Improvements in cross-layer relationships
- New 'Physical' layer
- Improvements in the viewpoints definition mechanism

## ACCREDITATION

This ArchiMate course has been approved and accredited by The Open Group, developers of the ArchiMate methodology.

## IS THERE AN EXAM?

Yes. Certification in ArchiMate requires you to pass both a Foundation exam and a Certified exam.

The Foundation exam is a closed book, multiple choice exam consisting of 40 questions. There is a time limit of 60 minutes and the pass-rate is 60%.

After passing the Foundation exam you can then move onto the Practitioner exam, which is an open book, multiple choice exam consisting of eight questions. There is a time limit of 90 minutes and the pass-rate is 70%.

A number of exercises are interspersed throughout the course, which are aimed at testing your understanding and practical application of the training you have just received. At the end of the course, a number of mock-exam case study scenarios are provided which have been designed to simulate the actual exam.

After passing both exams you will become a certified ArchiMate 3 Practitioner!
