English

Kick-start your Business Process Model and Notation training today by taking an accredited BPMN 2.0 e-learning course!

Learn from the experts with step-by-step tutorials that teach you how to create precise business processes using the BPMN 2.0 standard.

WHO SHOULD TAKE THIS COURSE?

The course is ideal for professionals who work within an organization that uses the BPMN 2.0 specification for business process mapping and modeling.

It also provides an excellent introduction to business users and process implementers alike.

BPMN is designed for individuals, teams and different stakeholders that need to communicate processes in a standardized manner.

WHAT DOES THE COURSE COVER?

This course will teach you how to create good BPMN models with clear process logic that can be shared across your organization.

Learn from the experts with step-by-step tutorials that teach you how to create precise business processes using the BPMN 2.0 standard.

The course will teach you how to adhere to a common modeling method, allowing you to create diagrams that can be shared consistently across all business domains, including IT.

Students of this course will be able to confidently apply the rules, methodology and style of the industry standard business process modeling notation.
