IS THERE AN EXAM?

The examination is set at a higher level of difficulty than the Intermediate exams and will consist of ten complex multiple choice questions. The exam is based on a case study and between 8 and 10 questions will be case study based. A maximum of 2 questions will not be based on the case study although each question will state clearly whether or not it is case study based.

Each question is gradient scored, meaning that you will have four answer options to choose from, and each answer will either be worth five marks, three marks, one mark, or zero marks.

You will have 120 minutes to complete the exam.

There are a maximum of 50 potential marks in this exam; to pass you must get at least 35 out of 50 marks correct (70%).
