TOGAF BA (Business Architecture) examines topics such as organization, governance, business strategy and business processes in the context of the TOGAF Standard. It has its roots in proven market best-practices, providing valuable practical knowledge for both experienced architects or total novices.

WHO SHOULD TAKE THIS COURSE

- Anyone seeking an understanding of Business Architecture based on the TOGAF Standard, Version 9.2
- Professionals working in areas such as business planning and strategy
- Seasoned enterprise architects who want to add a specialization to their existing qualifications
- Newcomers seeking to either gain practical knowledge or verify their growing expertise
- Anyone wishing to pass the official TOGAF Business Architecture Part 1 examination

ABOUT THIS COURSE

This course is designed to help students achieve the TOGAF BA Level 1 Credential.

Students will gain a solid understanding of business capabilities, business modeling, information mapping, value streams and TOGAF business scenarios.

TOGAF BA goes into greater detail on business architectural elements than the standard TOGAF 9.2 syllabus. As such, TOGAF BA offers valuable insight even for those already certified in the main framework.

Achieving the TOGAF BA credential will earn students three academic credits, as part of The Open Group Certification program. Successful students will also be awarded

an 'Open Badge' which can be displayed on websites, emails and social media profiles.

The course consists of the following modules:

- An Introduction to TOGAF BA
- Module 1: Business Models
- Module 2: Business Capabilities
- Module 3: Value Streams
- Module 4: Information Mapping
- Module 5: Business Scenarios
- Practice Exam Simulators
