- Existing ITIL qualification holders wishing to develop their knowledge

## ABOUT THIS COURSE

ITIL 4 Specialist: Create, Deliver & Support is one of the modules in the new ITIL Managing Professional (MP) stream.

It goes into detail on how ITIL practitioners can integrate the various elements of IT, including designing, building, testing, launching, running and supporting IT-enabled products and services, in order to deliver real and sustainable value.

This ongoing process is central to the development and operation of technology systems and services, all of which must be designed and built to be seamlessly integrated.

By the end of the course, students will be fully prepared to sit and pass the ITIL 4 CDS examination.

The course consists of 5 modules:

- Intro: An Introduction to ITIL Specialist: Create, Deliver & Support
- Module 1: Professionalism in IT Service Management
- Module 2: Using ITIL Practices and Value Streams to Effectively Create, Deliver and Support Services
- Module 3: Prioritization and Managing Work
- Module 4: Practice Exams
- Module 5: Course Wrap-Up
